EDUCATION

Full Stack Web Development

Masai School, Bengaluru

Nov 22 - Nov 23

M.Sc (Mathematics)

C.M. Science College, Darbhanga

April 18 - April 20

TECHNICAL SKILLS

Java | SpringBoot | MySql |

RESTful APIs | JavaScript | Git

SOFT SKILLS

Teamwork | Problem Solving |

Adaptability | Attention to Detail |

Time Management

Chandan Sharma

Java Backend Developer

PROFESSIONAL SUMMARY

A solution-driven web developer with the ability to learn and collaborate in rapidly changing environments and compositions. Has 1200+ hours of experience in HTML, CSS, JavaScript, Java, Hibernate, Spring, Spring Boot, and MySQL. Eager to tackle web development challenges to achieve lasting impacts on user experience.

PROJECTS

1. BusReservationSystem | 🌐 | 📱

Java | SpringBoot | Hibernate | Html | Css | JavaScript | MySQL

- Designed and developed a web application for bus ticket reservation system using Java, SpringBoot, Hibernate, Html, Css, and JavaScript.
- Implemented user authentication and authorization using Spring Security to ensure secure access to the application.
- Integrated MySQL database to store and retrieve user information, bus details, and ticket bookings.
- Utilized RESTful APIs to enable seamless integration with frontend components and external systems.
- Performed thorough testing and debugging to identify and resolve issues, ensuring the reliability and efficiency of the application.

2. Car-Rental-Service | 🌐 | 📱

- Developed a backend server application using Java and the Spring framework.
- Implemented RESTful APIs for managing car rentals, customer profiles, and payment processing.
- Collaborated with frontend developers to integrate the backend with the user interface.
- Implemented database functionality using MySQL, including efficient SQL queries for data retrieval and manipulation.
- Optimized code and database queries to enhance performance and scalability of the application.
